## Donor's visit and hospitality

We are deeply grateful for the recent visit from our esteemed donors and sponsors, led by HELP Cambodia. During their visit, we provided a tour of the community and showcased a series of performances and presentations by our students, ranging from beginner to advanced levels. To honor their presence, we also served traditional Khmer cakes. It was truly impressive to see our donors and sponsors engage with our school community so enthusiastically. We hope this visit encourages even more donors and sponsors to join us in our charitable efforts aimed at transforming the lives of children in our community.

## School decoration

It has now been seven years since our school relocated from my father-in-law's home. During this time, the school has undergone significant renovations and decorations to enhance its appeal. I am proud to share that our students participated actively in this process, painting various areas of the school and creating the beautiful artwork that adorns the walls. Our slogan, "Work Hard, Achieve Wonder," captures the spirit of our efforts, and we dedicated an entire month to completing this transformative project. For parts of the school that required specialized repairs beyond our capabilities, we engaged professional contractors to ensure that the work was done to a high standard. I would like to express my sincere gratitude to everyone involved for their hard work and determination in bringing this vision to life, dedicating their time from morning until night to achieve this remarkable outcome.

## Used desktops donation

HELP Cambodia generously donated 15 desktops and 8 brand-new tablets following their visit at the end of 2023. These computers and tablets have proven to be incredibly useful in our teaching processes, and the students are delighted to have the opportunity to use them. Their smooth functionality and user-friendly design have made them a valuable resource for learning. On behalf of the DCC leadership, I would like to express my heartfelt gratitude to all those involved in providing the funding necessary for this donation. Your support is instrumental in enhancing our students' educational experience.

## The Graduated Students

It is with great honor that we announce the graduation of two more students who have earned their bachelor's degrees in their respective fields. I am incredibly proud of their achievement, having successfully completed a four-year journey of dedication and hard work. Both graduates have recently secured well-paying jobs, allowing them to support their families in need. Menea and Sreyrov have been a part of our school community since they were young. Despite facing significant challenges living in a low-income household, they never wavered in their commitment to education. I hope their accomplishments serve as an inspiring role model for the new generation at DCC. Their dreams have now come to fruition, and we are deeply grateful to HELP Cambodia for making this possible. "There is a total of seven graduates."

## Future university students in early 2025

This year, five students are set to attend university in early 2025. Among them, one student achieved outstanding results, earning a Grade A, which is the highest recognition in our country. This accomplishment has granted her the opportunity to attend a government university free of charge. All university fees for these students are covered under the generous support from HELP Cambodia. We are immensely grateful for the sponsorship program that plays a crucial role in helping these young individuals pursue their dreams.
